## White Salmon Periods Of Paper Salvage Starting Month of August

The Kentucky Paper Salvage Committee has announced that paper salvaging organizations in the state shipped 3,035,063 pounds of paper during the month of August.

The largest shipment they have made was 1,000 pounds of paper, still so scarce that the paper industry Advisory Committee has told the War Production Board that collection of paper should be continued for two months after victory in Europe.

A special "Paper Holiday" kit is being prepared by the Conservation Division of the War Production Board to assist towns in conducting "Paper Holidays," at which merchandise, except a few articles that require wrapping for sanitary purposes, will be handed to customers unwrapped. It is hoped that by these "Holidays" the paper supply will be greatly extended.

During the past month food, drug and variety stores throughout the nation have signed the War Production Board Pledge to conserve bags and wrapping paper. The "Paper Holiday" plan provides towns with a unique method of bringing the retailers in the community into the conservation program.

## Army Air Service Command Offers Training With Pay

Ashland Vocational School For Both Men And Women

The Army Air Service Command in Fairfield, Ohio, the largest of its kind in the world, is offering training with pay to the Ashland Vocational School for both men and women, ages 18 to 21, who are interested in machine shop practice, aircraft sheet metal, fabrication and riveting, and aircraft engine mechanics. The training is valued at \$156.00 per month for beginning trainees, with an automatic raise to \$181.00 per month of training and transfer to the field at the expense of the government.

The courses offered at the Ashland vocational school provide training for essential war work. All those who are interested are urged to contact Mr. Donald L. King at the school, located at 17th Street and Central Avenue, in Ashland, Ohio.

The State Department of Education, under the direction of J. F. Williams, Superintendent of Public Instruction, has assumed the leadership in Kentucky for an active go-to-school campaign following a joint appeal from the United States office of education, the War Relocation Commission, and the Children's Bureau of the United States Department of Labor.

Statistics show that in the three-year period from 1940 to 1943, high school enrollment in Kentucky dropped 6,312 and elementary enrollment 31,311. An even larger drop is anticipated, with the figures for 1944 are made available.

This problem of keeping boys and girls in school has always been a challenge to school people and others interested in the future welfare of the youth and the strength of the nation. Since the outbreak of the war, however, this problem has been greatly aggravated by the fact that young people are leaving school to take jobs.

Education is the natural birthright of American boys and girls, and the object of school attendance service is to prevent their sacrificing this natural right. The go-to-school campaign includes all grades from the first through the twelfth, and will continue throughout the entire school term. All school children, their parents, and the citizens of every community are asked by the leaders of the campaign to keep in mind the importance of enrolling in school and keeping in regular attendance.

**1,000 Motorized Cafeterias Operate In England**

**Most Efficient Mass-Feeding Operations Of The War**

A fleet of 1,000 "motorized cafeterias" operated by the British War Relief Society in England have been mobilized on behalf of robot bomb victims in London and England, in one of the most efficient mass-feeding operations of the war, according to information received by Kentucky War Fund chairman, Dr. Frank L. Mick.

Those motorized cafeterias, the life-saving mobile kitchens of the early blitz days, operate in addition to the huge food trucks, water carriers and supply vehicles known in England as "Queen's Messengers." A typical operations center may serve more than 3,000 people a day with stew, soup, sandwiches, and hot drinks.

Some of the mobile kitchens have been taken out of civilian service to take over the job of welcoming wounded soldiers from the continent. The commander-in-chief of a military station in England reveals the significance of this work when he says:

"The fact of receiving such hospitable welcome on arrival in England from the far shore has undoubtedly considerably to maintain at such a high level the morale of those who have come back to this country wounded."

Contributions made by the residents of Morehead help the National War Fund finance the work of the British War Relief Society, Dr. McVey explained. He further revealed that many contributions to the National War Fund agencies support the USO and USO-camp shows, war prisoners aid, seamen service, and refugee relief, with two-thirds of our money going to our own and the rest to destitute peoples among the United Nations.

**Russia Interested In Friendly Relations Says Dr. Mick**

"Czechoslovakia and the Balkan countries need have no fear of Russian 'imperialism' after this war. The Soviet Union is only interested in friendly relations in Europe and will be busy for the next fifteen or twenty years with reconstruction," says Dr. Eduard

Mick, associate professor of Slavonic languages of the University of Texas, who was born in Czechoslovakia.

Commenting on the many opinions circulating about Russia's position after Germany falls, he added that most Americans distrust Moscow because they know so very little about the Russians. Dr. Mick has spent two years in Russia and speaks and reads Czech, Russian, Polish, English, and German. His mother and four brothers were in Czechoslovakia when Hitler took over in 1939.

Dr. Mick is afraid that Czechoslovakia will be set too friendly toward France and England after this war because of Munich.

"Few people remember that Russia offered to help Czechoslovakia resist Nazism aggression when France and England were giving Hitler anything he asked for in order to keep the peace," Dr. Mick pointed out. "President Benes, like everyone else Dr. Goebbels could influence, was afraid of Communism."

Dr. Mick emphasized that Czechoslovakia, one of the most prosperous nations in Europe after World War I, is now completely exploited and on the verge of bankruptcy. "Bad as the condition may be in the country, it will be the people who will decide, when they are freed, what kind of government they want. There will undoubtedly be Communists in Czechoslovakia, as in countries all over the world, but they will be Czech Communists," Dr. Mick said emphatically. "I am an American Democrat, but I do not see how we can hope for peace if we do not extend friendliness and honesty to Russia, Czechoslovakia, Romania, Bulgaria, Turkey, Hungary, Greece, Yugoslavia, and Austria may have their boundaries changed somewhat when peace comes, but they will be free to work out their own futures."

**Senator Bagby Gives Four Scholarships To MC**

In 1941, State Senator R. M. Bagby of Grayson established a scholarship fund at Morehead which has by now become a regular part of the school's program.

The first year the scholarship was offered to two graduating seniors from Grayson's Prichard high school, in the sum of \$150 and \$10 respectively. Recipients for this year's awards were Miss Jean Fields and Miss Blanche Stamper, both of Grayson, and the scholarship for the second year was awarded to Miss Ruth Fields, also a Prichard graduate.

Beginning in 1943, Mr. Bagby enlarged the area covered by the scholarship, giving four scholarships of \$125 each. One student each was to be chosen from Lewis, Greenup and Elliott counties and one from Prichard high school.

Those receiving the scholarships in that year were Miss Malinda Pratt from Prichard, Miss Nita McElhenny from Greenup county and Miss Doris Cook from Lewis County. There was no representative from Elliott County that year.

This fall there are four students on the Morehead campus who have been awarded the Bagby Scholarships—Mary Jo Hamon from Prichard, Ross Inez Messer from Greenup county, Lois Guile from Lewis county and Vilma Sparks from Elliott county.

The basis for the selection of the recipients of the Bagby Scholarships has been outlined as follows:

"The student must have maintained a record of high scholarship in his high school. He or she

should be rated as one of the first five of the high school graduating class, in scholarship.

"The recipient of the Bagby scholarship must have developed a good character; one who is dependable, steadfast, generous and considerate of the rights of others.

"The recipient of the Bagby Scholarship should need financial help in order to undertake and complete his college education.

"The county superintendents of Lewis, Greenup and Elliott counties shall recommend a list of three or four meritorious students, each of whom meets the requirements set forth, and the president and the dean of Morehead College will select one student from each of the three counties from the lists submitted."

**A Statement Regarding the DEMOCRATS FOR DEWEY Organization in Kentucky**

The Kentucky group is part of the national Democrats for Dewey organization with headquarters in Chicago, which believes that the best interests of the Democratic Party can be served by the election of Governor Dewey on November 7. Our reasons for this are briefly:

1. No president elected by either party should maintain his term of office through 16 years.
2. The Communist backing and P A C Slush Fund support of the New Deal is unwholesome and un-American.
3. A postwar anti-New Deal congress set against a New Deal executive would make for a divided government and the same chaotic condition for bringing about lasting peace which followed World War I.
4. Supporting the cause of a free government is the first patriotic duty of every American regardless of political affiliation, race or creed.

If you believe as we do, help America now to regain her freedom—politically, economically, and socially. Any person wishing to contribute to this great Democratic movement is invited to send a contribution to

our Hoosier-happy Chief of the Indiana Bureau of The Courier-Journal, gets over to Louisville occasionally to report in person to his newspaper office, but he doesn't let any grass grow under his feet. Doc Ransdell is always in a hurry to get "back home in Indiana." For seven years before being made Chief of the Indiana Bureau, he held forth from the land of the Wabash and White rivers, as Indiana editor.

With modesty typical of a good newspaper man, our Hoosier host shot down the fact that his journalistic labors lack the fire of a foreign correspondent's reports . . . and fail to match the eager emotionism of Washington columnists. All of which simply proves that he is a sound fellow, well versed in day in, and day out, chronicling of events. Ransdell hastens to add that he became day city editor of The Courier-Journal in 1925, just in time to help cover the famed "Floyd Collins-in-the-cave story" . . . a chronicling assignment in any man's language.

Pleasantly personal, Doc's job consists of contacting Indians whose activities make or affect the news . . . and to keep an eye open at all times for events that are of special interest or significance to Southern Indiana. He supplements news coverage of AP, UP, and INS, with interpretive, background and informal special feature reporting . . . thus insuring readers the best all round coverage of Indiana news.
